September 8, 2006

To the Board of Directors Project Read Provo, UT

We have compiled the accompanying statement of financial position of Project Read (a nonprofit organization) as of June 30, 2006, and the related statements of activities and cash flows for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2006

NOTE 1 – NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Prior to July 2004, Project Read was known as the Mountainland Literacy Coalition (MLC). The MLC was formed as a 501(c)(3) non-profit organization in 1994 to coordinate literacy services in Utah County. In 2004, the MLC changed its name to Project Read. It also changed its purpose from coordinating literacy services to actually providing literacy services to adults in Utah County. For the current year, Project Read is shown as an agency fund of Provo School District.

Contributed Services and Facilities

During the year ended June 30, 2006, the value of contributed services meeting the requirements for recognition in the financial statements was material and has been recorded as compensation in the amount of \$47,859. In addition, many individuals volunteer their time and perform a variety of tasks that assist the Organization, but these services do not meet the criteria for recognition as contributed services. Provo City contributes space in the library at a value of \$25,000.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Property and Equipment

It is the Organization's policy to capitalize property and equipment over \$1,000. Lesser amounts are expensed. Purchased property and equipment is capitalized at cost. Donations of property and equipment are recorded as contributions at their estimated fair value. Such donations are reported as unrestricted contributions unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time. Property and equipment are depreciated using the straight-line method over lives of 3 to 5 years.

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2006

NOTE 1 – (Continued)

Financial Statement Presentation

The Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Contributions

Under SFAS No. 116, Accounting for Contributions Received and Contributions Made, contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence or nature of any donor restrictions.

Income Taxes

The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

Cash and Equivalents

For purposes of the statements of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

NOTE 2 – CONCENTRATIONS AND ECONOMIC DEPENDANCY

Most of the revenue received by Project Read comes from government grants and donations. The programs operated by Project Read depend on continued funding from state and local governments.
